Performing Initial Settings

You need to perform initial settings before operating the unit for the first time, after replacing the car battery, or changing connections.

If the initial settings screen does not appear when you turn on the unit, perform the factory reset to initialize the unit.

- 1 Touch [Language], then set the display language.
- 2 Touch [Demo] repeatedly to select [OFF] to disable the demonstration mode.
- 3 Touch [Set Date/Time], then set the date and time.
- 4 After setting the date and time, touch [OK].
XAV-1600(E)/XAV-1600(IN): proceed to step 5.
XAV-3600: skip to step 6.
- 5 Touch [Tuning Steps], then set the FM/AM tuning step. (XAV-1600(E)/XAV-1600(IN))
- 6 To return to the previous display, touch  (back), then touch [OK].
The startup caution appears.
- 7 Read through the startup caution, then if you accept all conditions, touch [Close].
The setting is complete.

This setting can be further configured in the setting menu.

XAV-3600/XAV-1600

Preparing a Bluetooth® Device

You can enjoy music or perform handsfree calling depending on the BLUETOOTH compatible device such as smartphones, mobile phones, and audio devices (hereafter “BLUETOOTH device” if not otherwise specified). For details on connecting, refer to the operating instructions supplied with the device. Before connecting the device, turn down the volume of this unit; otherwise, a loud sound may result.

In-Car Receiver
XAV-3600/XAV-1600

Pairing and Connecting with a BLUETOOTH Device

When connecting a BLUETOOTH device for the first time, mutual registration (called “pairing”) is required. Pairing enables this unit and other devices to recognize each other.

- 1 **Place the BLUETOOTH device within 1 m (3 ft) of this unit.**
- 2 **Press HOME, then touch [Settings].**
- 3 **Touch [Bluetooth].**
- 4 **Touch [Bluetooth Connection], then touch [ON].**
The BLUETOOTH signal is turned on and  (BLUETOOTH) lights up on the status bar of the unit.
- 5 **Touch [Pairing].**
 (BLUETOOTH) flashes while the unit is in pairing standby mode.
- 6 **Perform pairing on the BLUETOOTH device so it detects this unit.**
- 7 **Select your model name shown in the display of the BLUETOOTH device.**
Repeat from step 5 if your model name does not appear.
If the connection confirmation display appears, operate the BLUETOOTH device to approve the connection, then touch [OK] on the unit and/or the BLUETOOTH device.
- 8 **If passkey* input is required on the BLUETOOTH device, input [0000].**
When pairing is made,  (BLUETOOTH) stays lit.
* Passkey may be called “passcode”, “PIN code”, “PIN number”, “password”, etc., depending on the BLUETOOTH device.
- 9 **Select this unit on the BLUETOOTH device to establish the BLUETOOTH connection.**
 (mobile phone) or  (audio) lights up when the connection is made.

Note

- The unit can only be connected with one BLUETOOTH device at a time.
- To disconnect the BLUETOOTH connection, turn the connection off from either the unit or the BLUETOOTH device.

In-Car Receiver
XAV-3600/XAV-1600

Connecting with a Paired BLUETOOTH Device

To use a paired device, connection with this unit is required. Some paired devices will connect automatically.

- 1 Press HOME, then touch [Settings].**
- 2 Touch [Bluetooth].**
- 3 Touch [Bluetooth Connection], then touch [ON].**
Make sure that  (BLUETOOTH) lights up on the status bar of the unit.
- 4 Activate the BLUETOOTH function on the BLUETOOTH device.**
- 5 Operate the BLUETOOTH device to connect to this unit.**
 (mobile phone) or  (audio) lights up on the status bar.

To connect the last-connected device from this unit

When the ignition is turned to on with the BLUETOOTH signal activated, this unit searches for the last-connected BLUETOOTH device, and connection is made automatically.

Note

- While streaming BLUETOOTH audio, you cannot connect from this unit to the mobile phone. Connect from the mobile phone to this unit instead.

To capture your voice during handsfree calling

You need to install the microphone (supplied).

In-Car Receiver
XAV-3600/XAV-1600

Using a Rear View Camera

- Installation of the rear view camera (not supplied) is required before use.
- The picture from the rear view camera connected to the CAMERA IN terminal is displayed when:
 - The back lamp of your car lights up (or the shift lever is set to The R (reverse) position).
 - You press HOME, then touch [Rear Camera].

In-Car Receiver
XAV-3600/XAV-1600

Listening to the Radio

Press HOME, then touch [Radio].

Reception controls/indications

A. Current band

Change the band (FM1, FM2, FM3, AM1 or AM2).

B. Current frequency, program service name*, RDS (Radio Data System) indication*

* Only available during RDS reception.

C. ●●● (radio option)

Open the radio option menu.

D. SEEK-/SEEK+

Tune in automatically.

E. < / > (left/right)

Tune in manually.

Touch and hold to continuously skip frequencies.

F. Preset numbers

Select a preset station. Swipe right/left to show the other preset stations.

Touch and hold to store the current frequency in that preset.

In-Car Receiver
XAV-3600/XAV-1600

Tuning

1 Select the desired band (FM1, FM2, FM3, AM1 or AM2).

2 Perform tuning.

To tune automatically

Touch SEEK-/SEEK+.

Scanning stops when the unit receives a station.

To tune manually

Touch and hold **</>** (left/right) to locate the approximate frequency, then touch **</>** (left/right) repeatedly to finely adjust to the desired frequency.

To store manually

While receiving the station that you want to store, touch and hold the desired preset number.

To receive stored stations

Select the band, then touch the desired preset number.

XAV-3600/XAV-1600

Playing a USB Device

MSC (Mass Storage Class) type USB devices* compliant with the USB standard can be used.

* e.g., a USB flash drive, digital media player

Note

- For details on the compatibility of your USB device, visit the support site.
- Check the supported file formats for USB playback.

- 1 Turn down the volume on the unit.**
- 2 Connect the USB device to the USB port.**
- 3 Press HOME, then touch [USB].**
Playback starts.

To remove the USB device

Turn the unit off or turn the ignition switch to the ACC off position, then remove the USB device.

In-Car Receiver
XAV-3600/XAV-1600

Playing an HDMI™ Device (XAV-3600)

- 1 Turn off the HDMI device.
 - 2 Turn down the volume on the unit.
 - 3 Connect the HDMI device to the HDMI terminal on the unit.
 - 4 Press HOME, then touch [HDMI].
 - 5 Turn on the HDMI device.
- Playback starts.

Note

- BLUETOOTH audio is not available when HDMI device is played.
- Do not disconnect the device during playback.
- To connect an Apple device via the HDMI cable, Lightning Digital AV Adapter or USB-C Digital AV Multiport Adapter is required.
- To charge a device when connecting the HDMI cable, connect to the USB port using a multiport adaptor.
- The image may show up differently on the unit's display compared to the one on the display of the connected HDMI device.
- This unit is compatible with 480p, 576p, and 720p.

In-Car Receiver
XAV-3600/XAV-1600

Playing a BLUETOOTH Device

You can play contents on a connected device that supports BLUETOOTH A2DP (Advanced Audio Distribution Profile).

- 1 Make a BLUETOOTH connection with the audio device.
- 2 Press HOME, then touch [Bluetooth].
- 3 Operate the audio device to start playback.

Note

- Depending on the audio device, information such as title, track number/time, and playback status may not be displayed on this unit.
- Even if the source is changed on this unit, playback of the audio device does not stop.

To match the volume level of the BLUETOOTH device to other sources

You can reduce the volume level differences between this unit and the BLUETOOTH device:
During playback, touch ●●● (option), then set [Input Level] between -6 and +6.

WebLink™

The “WebLink Host” app allows you to enjoy the “WebLink Apps” such as a video or music player on the connected iPhone/Android phone.

Notes on using WebLink™

- Check the WebLink™ website for supported OS versions. Update to the latest OS version before use.
- For details on compatible models, refer to the compatibility list on the following site:
<https://helloweblink.com>
- Download the “WebLink Host” app available on Google Play for your Android phone, and available on the App Store for your iPhone.
- A network connection may be required when configuring settings, such as during the initial connection setup. Make sure that a network connection is available on your iPhone/Android phone.
- When using the Cast function, settings on your iPhone/Android phone may be required.
- For details about the “WebLink Apps”, visit the website for the “WebLink Apps”.
- The WebLink™ function and/or a certain “WebLink Apps” may not be available in your country or region.
- When using the Cast function and connecting the iPhone, the display direction is the same as the display of the iPhone.

1 Connect your iPhone/Android phone with main unit via BLUETOOTH.

2 Connect your iPhone/Android phone to the USB port.

To connect an iPhone, use a USB connection cable for iPhone (not supplied).
To connect an Android phone, use an appropriate connection cable (not supplied).

3 Press HOME, then touch the WebLink™ icon.

The WebLink™ display appears on the display of the unit. Touch and control the applications.

In-Car Receiver
XAV-3600/XAV-1600

Using Gesture Command

You can perform frequently-used operations by swiping your finger on the reception/playback display.

Note

- The gesture commands explained below are not available on the screens of WebLink™.

Swipe left to right

Radio reception:

seek forward stations. (The same as pressing and holding  (next).)

Video/audio playback:

skip forward a file/track. (The same as  (next).)

Swipe right to left

Radio reception:

seek backward stations. (The same as pressing and holding  (previous).)

Video/audio playback:

skip backward a file/track. (The same as  (previous).)

Swipe upwards

Radio reception:

receive stored stations (go forward).

Swipe downwards

Radio reception:

receive stored stations (go backward).

In-Car Receiver
XAV-3600/XAV-1600

Basic Setting Operation

You can set items in the following setup categories: General Settings (General), Sound Settings (Sound), Visual Settings (Visual), BLUETOOTH Settings (Bluetooth).

- 1 Press HOME, then touch [Settings].**
- 2 Touch one of the setup category.**
The items that can be set differ depending on the source and settings.
- 3 Move the scrollbar up and down to select the desired item.**

To return to the previous display

Touch  (back).

To switch to the playback screen

Touch  (return to the playback screen).

Wallpaper

Changes the wallpaper by touching the desired color.

Setting a photo data as the wallpaper (XAV-3600/XAV-1600(E)/XAV-1600(IN))

You can also set your favorite photo stored in a MSC (Mass Storage Class) type USB device as the wallpaper.

After connecting the USB device to the USB port, [You can import a photo from a USB device] appears on the screen.

Touch [Import] and select your favorite photo.

(Available only when the photo data are JPEG files of 6 MB or less.)

Dimmer for Monitor & Illum.

Dims the display and the button illumination: [OFF], [Auto], [ON].

([Auto] is available only when the illumination control lead is connected and works when the head light is turned on.)

 (register/setup) adjusts the brightness level when the dimmer is activated: -5 to +5.

Illum. Level on Monitor OFF

Dims the button illumination when the monitor is turned off: [OFF], [1], [2], [3], [4].

Touch Screen Adjust

Adjusts the touch screen calibration if the touching position does not correspond with the proper item.

In-Car Receiver
XAV-3600/XAV-1600

Precautions

- Power antenna (aerial) extends automatically.
- When you transfer ownership or dispose of your car with the unit installed, initialize all the settings to the factory settings by performing the factory reset.
- Do not splash liquid onto the unit.

Notes on safety

- Comply with your local traffic rules, laws, and regulations.
- While driving
 - Do not watch or operate the unit, as it may lead to distraction and cause an accident. Park your car in a safe place to watch or operate the unit.
 - Do not use the setup feature or any other function which could divert your attention from the road.
 - When backing up your car, be sure to look back and watch the surroundings carefully for your safety even if the rear view camera is connected. Do not depend on the rear view camera exclusively.
- While operating
 - Do not insert your hands, fingers, or foreign objects into the unit as it may cause injury or damage to the unit.
 - Keep small articles out of the reach of children.
 - Be sure to fasten seatbelts to avoid injury in the event of sudden movement of the car.

Preventing an accident

Pictures appear only after you park the car and set the parking brake. If the car starts moving during video playback, the following caution is displayed and you cannot watch the video.

[Video blocked for your safety.]

Do not operate the unit or watch the monitor while driving.

Notes on LCD panel

- Do not get the LCD panel wet or expose it to liquids. This may cause a malfunction.

- Do not press down hard on the LCD panel as doing so can distort the picture or cause a malfunction (i.e., the picture may become unclear or the LCD panel may be damaged).
- Do not touch the panel with objects other than with your finger as it may damage or break the LCD panel.
- Clean the LCD panel with a dry soft cloth. Do not use solvents such as benzene, thinner, commercially available cleaners, or antistatic spray.
- Do not use the unit outside the temperature range 0 °C to 40 °C (32 °F to 104 °F).

- If your car was parked in a cold or hot place, the picture may not be clear. However, the monitor is not damaged and the picture will become clear after the temperature in your car becomes normal.
- Some stationary blue, red, or green dots may appear on the monitor. These are called “bright spots” and can happen with any LCD. The LCD panel is precision-manufactured with more than 99.99% of its segments functional. However, it is possible that a small percentage (typically 0.01%) of the segments may not light up properly. This will not, however, interfere with your viewing.

Notes on the touch screen

- This unit uses a resistive touch screen. Touch the screen directly with your fingertip.
- Multi-touch operation is not supported on this unit.
- Do not touch the screen with sharp objects such as a needle, pen, or fingernail. Operation with a stylus is not supported on this unit.
- Do not let any objects contact the touch screen. If the screen is touched by an object other than your fingertip, the unit may not respond correctly.
- Since glass material is used for the screen, do not subject the unit to strong shock. If cracking or chipping occurs on the screen, do not touch the damaged part as it may cause injury.
- Keep other electrical devices away from the touch screen. They may cause the touch screen to malfunction.

If you have any questions or problems concerning your unit that are not covered in this Help Guide, consult your nearest Sony dealer.

Signal to Noise:
80 dBA reference 1 Watt RMS

Monitor section

Display type	Wide LCD color monitor
Dimensions	17.1 cm/ 6.75 in
System	TFT active matrix
Number of pixels	1 152 000 pixels (800 × 3 (RGB) × 480)
Color system	PAL/NTSC automatic select for CAMERA IN terminal

Radio section

XAV-3600:

FM

Tuning range	87.5 MHz – 107.9 MHz
Usable sensitivity	7 dBf
Signal-to-noise ratio	70 dB (mono)
Separation at 1 kHz	45 dB

AM

Tuning range	530 kHz – 1 710 kHz
Sensitivity	32 µV

XAV-1600(E)/XAV-1600(IN):

FM

Tuning range	87.5 MHz – 108.0 MHz (at 50 kHz step) 87.5 MHz – 108.0 MHz (at 100 kHz step) 87.5 MHz – 107.9 MHz (at 200 kHz step)
FM tuning step	50 kHz/100 kHz/200 kHz switchable
Usable sensitivity	7 dBf
Signal-to-noise ratio	70 dB (mono)
Separation at 1 kHz	45 dB

AM

Tuning range	531 kHz – 1 602 kHz (at 9 kHz step) 530 kHz – 1 710 kHz (at 10 kHz step)
AM tuning step	9 kHz/10 kHz switchable
Sensitivity	32 µV

USB player section

Interface	USB (Hi-speed)
Maximum current	1.5 A

HDMI section* (XAV-3600)

Input format	480p, 576p, 720p
--------------	------------------

* HDMI output is not available.

Wireless communication

Communication System	BLUETOOTH Standard version 3.0
Output	BLUETOOTH Standard Power Class 2 (Max. Conducted +1 dBm)
Maximum communication range* ¹	Line of sight approx. 10 m (33 ft)
Frequency band	2.4 GHz band (2.400 0 GHz – 2.483 5 GHz)

Modulation method	FHSS
Compatible BLUETOOTH Profiles*2	A2DP (Advanced Audio Distribution Profile) 1.3 AVRCP (Audio Video Remote Control Profile) 1.3 HFP (Handsfree Profile) 1.6 PBAP (Phone Book Access Profile) 1.1
Corresponding codec	SBC, AAC

*1 The actual range will vary depending on factors such as obstacles between devices, magnetic fields around a microwave oven, static electricity, reception sensitivity, antenna (aerial) performance, operating system, software application, etc.

*2 BLUETOOTH standard profiles indicate the purpose of BLUETOOTH communication between devices.

Power amplifier section

Outputs	Speaker outputs
Speaker impedance	4 Ω – 8 Ω
Maximum power output	55 W × 4 (at 4 Ω)

General

Power requirements	12 V DC car battery (negative ground (earth))
Rated current consumption	10 A
Dimensions (maximum)	Approx. 178 mm × 100 mm × 139 mm (7 1/8 in × 4 in × 5 1/2 in) (w/h/d)
Mounting dimensions	Approx. 182 mm × 111 mm × 120 mm (7 1/4 in × 4 3/8 in × 4 3/4 in) (w/h/d)
Mass	Approx. 1.0 kg (2 lb 4 oz)
Package contents	Main unit (1) Parts for installation and connections (1 set)
