Style Cover Leather for Xperia PRO-I
XQZ-CLBE

Note on use

- Do not use any type of solvents such as alcohol or thinner for cleaning. Doing so will cause colour fading, deformation or degradation which may damage the leather cover.

About the genuine leather

- This product is made of genuine leather. Unlike artificial leather, genuine leather may have scratches, wrinkles, or lines that look like plant veins on the surface. Every cover has a unique appearance and colour.
- To clean the leather cover, gently wipe it with a dry, soft cloth such as an eyeglass cleaning cloth.
- Moisture such as rain or sweat, or friction may cause discolouration or colour migration to your clothes, etc.
- Do not use or store the leather cover in a location exposed to direct sunlight (such as in a car), extremely high/low temperatures, high humidity or dust.
